## ATBATS COVID-19 SAFETY RULES & PROCEDURES

---

AtBats offers a safe, controlled environment for athletes to return to training that is fully compliant with state COVID-19 safety standards for Youth Sports. Safety and safe distancing are inherent to our operation and facility layout. We have the advantage of physically separating clients in training areas and controlling group size and activities. In addition to our normal safety rules we have implemented all MA workplace and public safety standards required for indoor sports training facilities and have modified our business operation as follows:

- Use of the facility is limited baseball and softball training for registered clients, members and authorized teams. Prepaid or membership reservations are required.
- We have limited our training areas (batting cages) scheduling to half capacity to provide physical space and time between active areas for client transition and cleaning.
- Client reservations are limited to a maximum of four people per training area including athletes and a coach or supervising adult. No visitors are allowed indoors.
- When hosting a full team practice, other activities and reservations will be limited in order to maintain required safe distance between groups.
- All clients and teams will be informed of our safety rules in advance and must confirm they have had no signs or symptoms of COVID-19 for 14 days.
- All persons entering the facility must wear a face mask or covering. Athletes will be allowed to remove their face mask when performing a strenuous drill as long as they maintain a 6' distance from others and must re-apply the face mask when the drill is completed.
- All persons must wash their hands immediately after entering the facility. Hand sanitizing stations will be available throughout the facility and signage encouraging hand washing.
- All persons will enter the facility through the front door and exit through the side door. Everyone should remain six feet apart to the greatest extent possible. Signage will be posted on safe distancing and hallway floors will be marked with distance reminders.
- Athletes must bring their own equipment (bat, glove, helmet, water bottle) and may bring their own baseballs and softballs. Facility equipment (machines, T's, balls) will be sanitized by staff before and after use.
- AtBats staff has been trained on required safety measures and will actively promote client awareness of safety requirements. Staff will be screened for symptoms before each shift.
- Cleaning and disinfecting protocols and schedules have been implemented, including frequent cleaning of high touch surfaces, equipment and bathrooms.
